Re: **BEDFORD HILLS CORRECTIONAL FACILITY –
KOHLER FACTORY TEST – 3/1 AND 3/2/07**

Dear Jeff:

I just returned from a (2) day witnessed factory test for the (2) 1500kW units we purchased for the above referenced project and wished to share my experience with you.

At the factory, we (myself, Rich Cupillo of Kinsley, and (2) representatives from NYS OGS) were greeted and accompanied by Michael Latino, Michael Bosela and Ryan Buamann, all of Kohler.

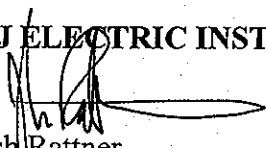

These Kohler representatives went out of their way to make the factory test, factory tours and overall experience an extremely educational and pleasant one.

The professionalism and proficient knowledge of the products (including technical aspects) were apparent and appreciated.

The hospitality afforded us by these men was unsurpassed and is deserving of recognition.

Very truly yours,

E-J ELECTRIC INSTALLATION CO.

Josh Rattner
Project Manager
